

## Technical Expert – French Speaker

### About us

As the founding entity of RAINBOW PARTNERS, Quanteam is a consulting firm specializing in the fields of Banking, Finance, and Financial Services.

Guided by our core values of closeness, teamwork, diversity, and excellence, our team of 1030 expert consultants, representing 35 different nationalities, collaborates across 12 international offices: Paris, Lyon, New York, Montreal, Madrid, London, Brussels, Geneva, Lisbon, Porto, Singapore and Casablanca.

Committed to sustainability (Ecovadis Gold), diversity (gender index: 92%), and quality of work life (Best Workplace Experience), Quanteam is a forward-thinking enterprise.

With a dual expertise in both business and IT, Quanteam supports its corporate clients (investment banks, asset management companies, private and retail banks, custodians, etc.) across the entire Front-to-Back spectrum in evolving their business activities and transformation projects.

### Main job responsibilities

- △ Coordinate obsolescence and decommissioning activities in collaboration with the Tribe and IT Cluster PMO.
- △ Manage or contribute to technical projects initiated by either ITG Production or BP2I.
- △ Ensure the provisioning of workstations and IT support for sourcing activities handled by ODC service centers, while implementing a first level of control over access authorization compliance.
- △ Support onboarding and technical assistance for ODC partners.
- △ Drive adoption of the Dynatrace APM tool within the Tribe.
- △ Provide backup support for AWS-related activities within the team.
- △ Hybrid regime in the Porto office.

### What are we looking for?

- △ At least 2 years of experience with Dynatrace to support application managers in enhancing their expertise across various Dynatrace modules, providing answers to their questions, and delivering effective solutions.
- △ Strong coordination skills to structure and prioritize initiatives, plan tasks, lead and coordinate contributing teams, manage budgets, and oversee project execution.
- △ Technical expertise with an architecture-oriented approach to ensure reliable reference data, conduct analyses, and provide guidance for informed decision-making.
- △ Excellent communication skills.
- △ Fluency in French (mandatory).
- △ Fluency in English (mandatory).
- △ Strong proficiency in Microsoft Office tools, particularly Excel and PowerPoint.
- △ Ability to work autonomously.
- △ Systematic, critical, and logical thinking.
- △ Strong focus on delivering high-quality results while meeting deadlines.
- △ Adherence to procedures, methodologies, and directives.
